Advanced Weather Interactive Processing System (AWIPS)
Software Continuous Technology Refresh (SW CTR)

The following software products were developed by Raytheon:

ADE (AWIPS Development Environment) software
CAVE (Common AWIPS Visualization Environment) software

This software was developed pursuant to Contract DG133W-05-CQ-1067 with the US Government.

Contractor Name: Raytheon Company
Contractor Address:
6825 Pine Street, Suite 340
Mail Stop B8
Omaha, NE 68106

U.S. EXPORT CONTROLLED TECHNICAL DATA
The AWIPS/CAVE software product contains export-restricted data whose export/transfer/disclosure is restricted by U.S. law. Dissemination to non-U.S. persons whether in the United States or abroad requires an export license or other authorization.

****
:: The following products are covered under the Apache 2.0 license:

- ActiveMQ
- ANT
- Apache Commons Libraries
- Apache MINA
- Atomikos TransactionEssentials
- Camel
- Ehcache
- IzPack
- Log4J
- Qpid
- stomp.py
- Spring Framework
- Tomcat Native
- Velocity

The Apache 2.0 license is located in the license/apache directory.

:: Ant-Contrib is covered under the Apache 1.1 license located in the license/apache directory

:: The following products are covered under the Eclipse Public License 1.0:

- Eclipse
- Eclipse CDT
- pydev
- Subclipse
- SWT Add-ons

The Eclipse Public License 1.0 license is located in the license/eclipse directory.

:: ANTLR is covered under the license located in the license/antlr directory.

:: Bitstream Vera Fonts is covered under the license located in the license/bitstream_vera_fonts directory.

:: bzip2 is covered under the Apache 1.1 license located in the license/apache directory.

:: CherryPy is covered under the license located in the license/CherryPy directory.

:: GEOS is covered under the license located in the license/GEOS directory.

:: GeoTools is covered under the license located in the license/geotools directory.

:: GRIBJava is covered under the license located in the license/GRIBJava directory.

:: h5py is covered under the license located in the license/h5py directory.

:: HDF5 is covered under the license located in the license/hdf5 directory.

:: Hibernate is covered under the license located in the license/hibernate directory.

:: JAI products are covered under the license located in the license/jai directory.

:: JAI Image IO products are covered under the license located in the license/jai_image_io directory.

:: Java products are covered under the license located in the license/java directory.

:: JBoss Cache is covered under the license located in the license/JBossCache directory.

:: Jepp is covered under the license located in the license/jepp directory.

:: JMock is covered under the license located in the license/jmock directory.

:: Jogl is covered under the license located in the license/jogl directory.

:: Jscience is covered under the license located in the license/jscience directory.

:: JTS Topology Suite is covered under the license located in the license/jts_topology_suite directory.

:: JUnit is covered under the license located in the license/junit directory.

:: libgFortran is covered under the license located in the license/libgFortran directory.

:: matplotlib is covered under the license located in the license/matplotlib directory.

:: Mozilla Rhino is covered under the license located in the license/rhino directory.

:: NCEP Libraries (cnvgrib, g2clib, g2lib, and w3lib) are covered under the license located in the license/NCEPLibraries directory.

:: NumPy is covered under the license located in the license/NumPy directory.

:: OGNL is covered under the license located in the license/OGNL directory.

:: PostGIS is covered under the license located in the license/PostGIS directory.

:: PostgreSQL is covered under the license located in the license/postgresql directory.

:: Proj is covered under the license located in the license/Proj directory.

:: PyTables is covered under the license located in the license/PyTables directory.

:: Python is covered under the license located in the license/python directory.

:: Python megawidgets is covered under the license located in the license/Python_megawidgets directory.

:: SciPy is covered under the license located in the license/SciPy directory.

:: Scientific Python is covered under the license located in the license/ScientificPython directory.

:: Thrift is covered under the license located in the license/thrift directory.

:: TPG is covered under the license located in the license/TPG directory.

:: Wildfire is covered under the license located in the license/wildfire directory.

:: xmltask is covered under the Apache 1.1 license located in the license/xmltask directory.
